School Parental Involvement Plan

FME will share our Title I status and encourage family participation at meetings, events, and functions at the following times each year: Open House, PTA meetings, Parent-Teacher Conferences, Winter Program, in our News Note, and on our website.

This coverage enables the school to communicate our Title I status and our programs at various times of the year with the intention of communicating with families at least once per year, but most likely more.

In addition to sharing our Title I status we will also be able to communicate our academic standards, their student's academic progress, how families can be involved in their child's education both at school and at home.
